Florida Statewide Survey

August 2009

By Jim McLaughlin • McLaughlin & Associates

www.mclaughlin.com

Methodology:

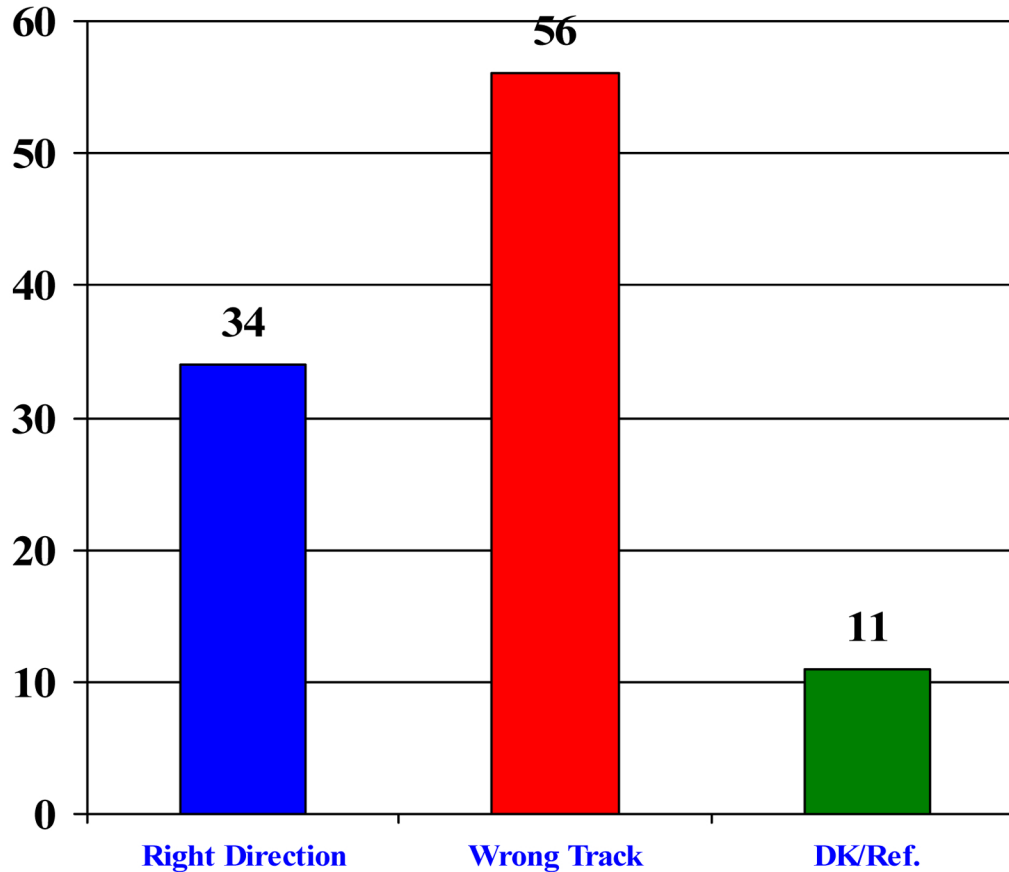

This survey of 600 likely general election voters in Florida was conducted on August 12 & 13, 2009.

All interviews were conducted via telephone by professional interviewers. Interview selection was random within predetermined election units. These units were structured to correlate with actual voter turnout.

The survey of 600 likely general election voters have an accuracy of +/- 4.0% at a 95% confidence interval.
